NATURAL STONES

1

AL SOKHNA MARBLE AND GRANITE FACTORY

Category: Natural Stone

Client: National Service Products Organization – Egyptian Company for Mining

Project description

The factory occupies an area of 15,000 square meters, it contains 4 Gang saws of 80 weapons, it contains 2 Multi Wires – PARAGAON Machines of 76 wires, it contains 4 polishing lines (slabs, Tiles) and one treatment marble and granite line, and it contains 3 automatic Bridge Saws and one CNC Machine and one Water jet.

Technology:

Breton Spa – Italy

Production capacity:

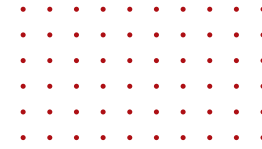

One million SQM of Marble, half million SQM of Granite per year.

Location:

Al Ain AL Sokhna – Wady hagoul Road

2

RAS SEDR MARBLE AND GRANITE FACTORY

Client: National Service Products Organization – Egyptian Company for Mining

Project description

The factory occupies an area of 15,000 square meters, it contains 4 Gang saws of 80 weapons, it contains 2 Multi Wires – PARAGAON Machines of 76 wires, it contains 4 polishing lines (slabs, Tiles) and one treatment marble and granite line, and it contains 3 automatic Bridge Saws and one CNC Machine and one Water jet.

Technology:

Breton Spa – Italy

Production capacity:

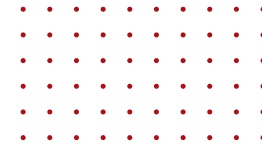

One million SQM of Marble, half million SQM of Granite per year.

Location:

Ras Sedr – Sedr Hetan Road

3

AL MENIA MARBLE AND GRANITE FACTORY

Client: National Service Products Organization – Egyptian Company for Mining

Project description

The factory occupies an area of 15,000 square meters, it contains 4 Gang saws of 80 weapons, it contains 2 Multi Wires – PARAGAON Machines of 76 wires, it contains 4 polishing lines (slabs, Tiles) and one treatment marble and granite line, and it contains 3 automatic Bridge Saws and one CNC Machine and one Water jet.

Technology:

Breton Spa – Italy

Production capacity:

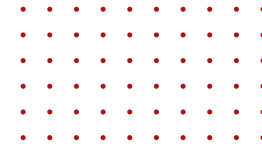

One million SQM of Marble, half million SQM of Granite per year.

Location:

Al Menia – El Shikh Fadl Ras Gharb Road

4

ASWAN GRANITE FACTORY

Client: National Service Products Organization – Egyptian Company for Mining

Project description

The factory occupies an area of 15,000 square meters, it contains 4 Gang saws of 80 weapons, it contains 2 Multi Wires – PARAGAON Machines of 76 wires, it contains 4 polishing lines (slabs, Tiles) and one treatment marble and granite line, and it contains 3 automatic Bridge Saws and one CNC Machine and one Water jet.

Technology:

Breton Spa – Italy

Production capacity:

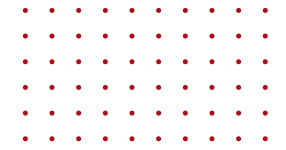

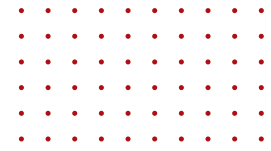

One million SQM of Marble, half million SQM of Granite per year.

Location:

Aswan – Industrial Zone Road

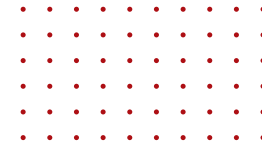

*ENGINEERED
STONES*

1

QUARTZ SLABS PLANET:

Client: Mining Company / NSPO

Project Description:

Production line (Bretonstone®) for producing average of 500.000 m2 of Quartz Slabs with the high standard technology of Breton in

Dimension 1.61 x 3.27 m

with thickness 1.2cm, 2cm and 3 cm.

Technology:

Breton

Production capacity:

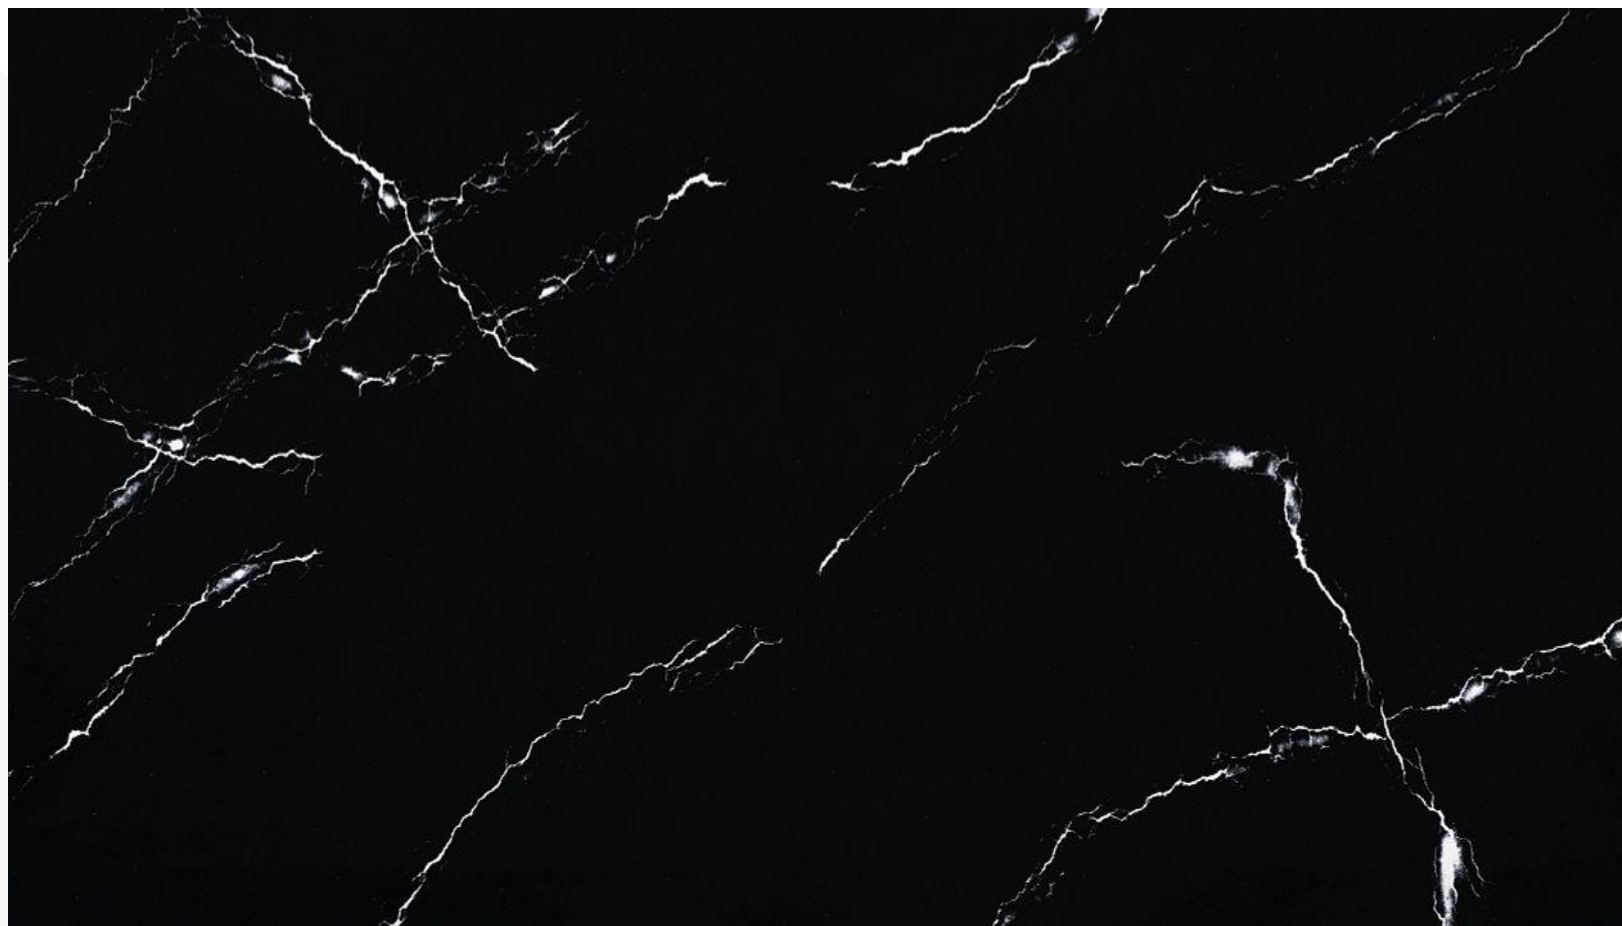

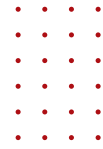

500.000 m2 / Year

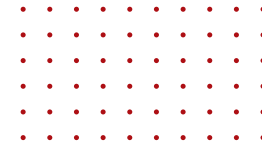

Location:

Ain Sokhna complex

2

AL GALALA TERASTONE

Client: Armed Forces Engineering Authority– Al Galala Compound

Project Description

The factory contains Marble Crusher, one big Mixer, and one Big Vacuum Chamber.

Technology:

Tera Stone Breton Spa – Italy

Production Capacity:

6000 blocks industrial Marble per year.

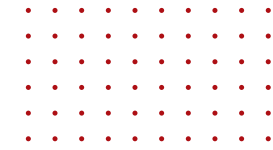

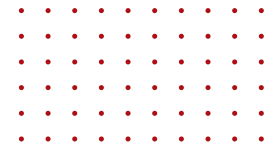

Location:

5th KM Al Sokhna – Hurguda Road

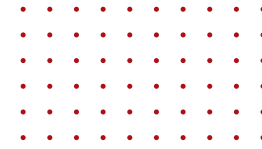

MINING INDUSTRY

1

QUARTZ CRUSHER PLANT

Client: Mining Company / NSPO

PROJECT DESCRIPTION:

High technology crusher with the most advanced process to crush, Grinder and filler production of Raw Quartz.

Production Size:

4 cm

0 - 4 mm

Technology :

Minirali Industriali S.P.A

Production capacity:

140.000 ton / year

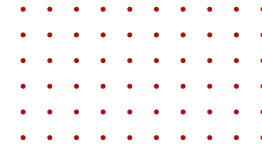

Location :

Marsa Alam Area.

2

Quartz Milling Plant

Client: Mining Company / NSPO

PROJECT DESCRIPTION:

High technology milling with the most advanced process for Grinding and separating of Raw Quartz Aggregates.

Production Size:

0.1, 0.3 mm

0.3, 0.7 mm

0.7, 1.2 mm

1.2, 2.5 mm

45 Micron

Technology:

Minirali Industriali S.P.A

Production capacity:

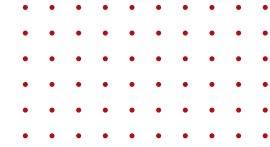

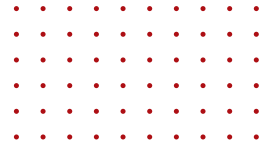

140.000 ton / year

Location:

Marsa Alam Area

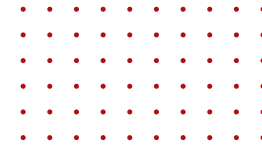

WOOD INDUSTRY

1

NSPO WOOD WORKING FACTORY

Client: National Service Products Organization –
National company for construction and public supplying

Project Description

The main purpose of the project is supplying the woodworking production line to produce wooden doors, contains machines like: Membrane Presses, aspiration and filtration systems for the woodworking and provide a full installation process.

Technology:

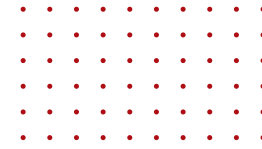

Utensil Legno / SCM – Italy

Location:

Cairo – NSPO company Suez Road

2

SOFITEL CAIRO NILE EL GEZIRAH – INTEGRATED HOSPITALITY AREAS DEVELOPMENT

Project Description

Al Sherif Brand Group, in collaboration with **Fair Trade**, a leading company in the furniture industry, successfully executed and delivered multiple key areas within Sofitel Cairo Nile El Gezira Hotel, combining high-end finishing, bespoke furniture solutions, and exceptional attention to detail.

- Bar Area
- VIP Area
- El Kebabgy Restaurant
- Nile Café
- Mandarin Restaurant
- Moroccan Restaurant
- Lobby Area
- Nile Area
